Fara Skateboard Prefab

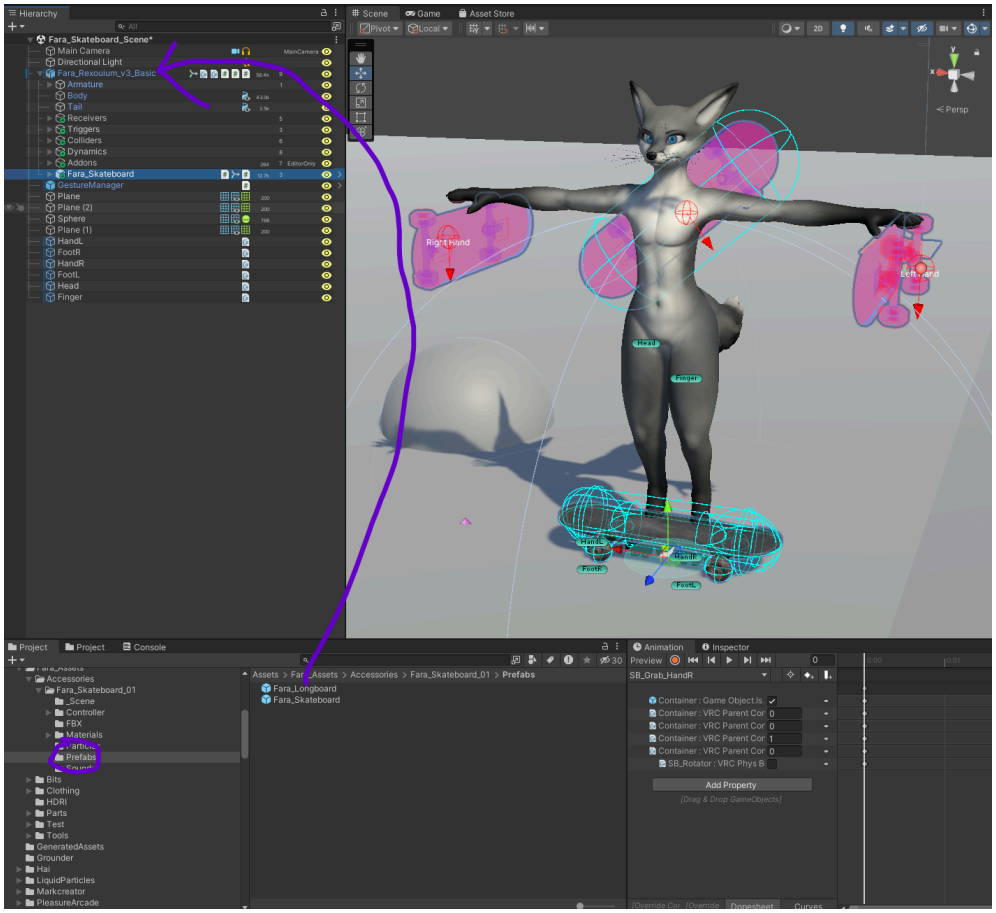

This guide will NOT teach you how to upload your avatar to VRchat or to setup an avatar. This guide assumes you know how to upload and is simply a guide on how to attach the skateboard asset to your avatar.

Prerequisites

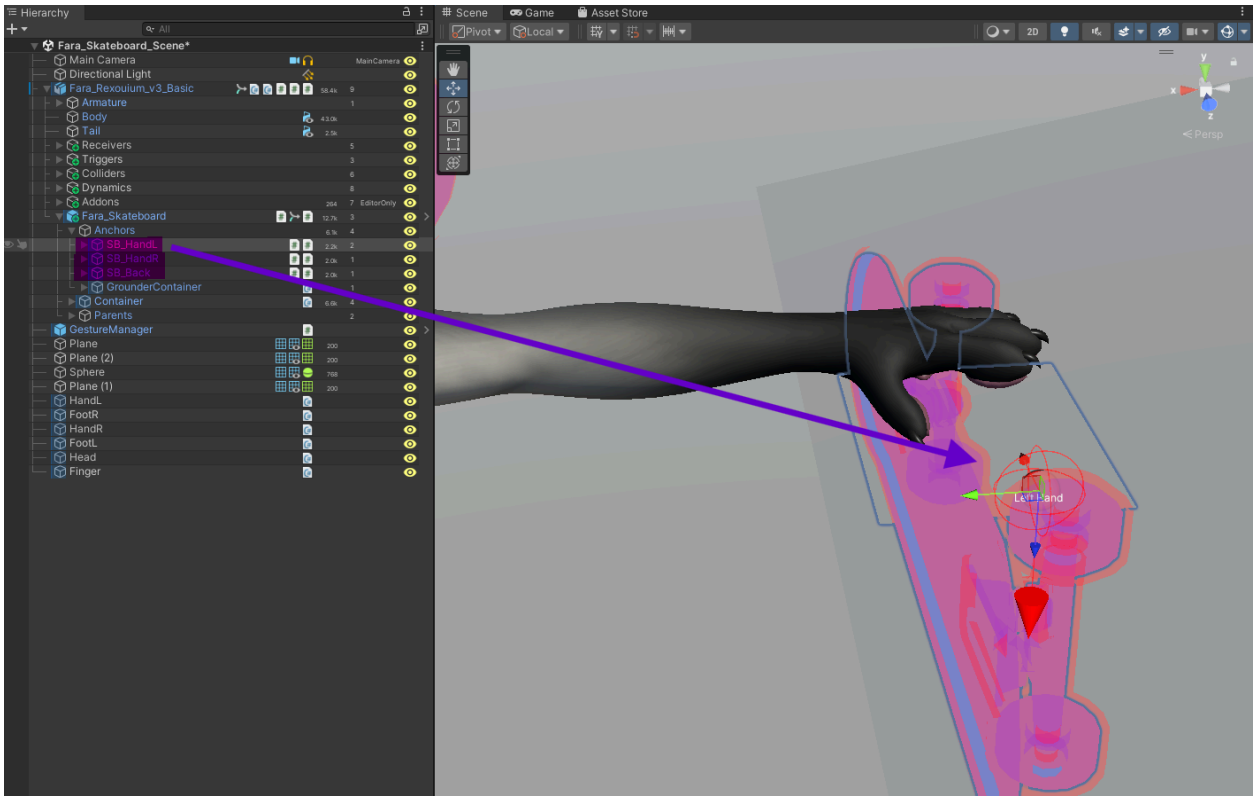

Poiyomi 9.1+
VRC Fury
[Final IK Stub]

Installation

1. Drag either the Skateboard or the Longboard onto the root of your avatar

2. Use the Hand Left, Hand Right and Back anchors to line the skateboard up to your avatar

3. If you need to scale the board, find the SCALE ME empty under Container > SB_Rotator > Board SCALE ME
